

City Hall Courtyard Reconstruction

City of Winnipeg

Project Description

KGS Group and Scatliff Miller Murray Landscape Architects were retained by City of Winnipeg to provide conceptual and detailed design and contract administration for a complete reconstruction of the central courtyard of Winnipeg's City Hall Building. The \$2 million project included:

- demolition of the existing courtyard structure and services crawlspace
- Construction of new courtyard slab structure, foundations and tree wells
- construction of courtyard landscaping and paving
- construction of decorative fountain
- Construction of new mechanical and electrical systems
