

KENORA PUBLIC WORKS YARD

City of Kenora

Kenora, Ontario

Project Description

With the amalgamation of neighbouring Jaffray Melick and Keewatin, the City of Kenora chose to consolidate their public work functions at one location. KGS Group was retained to provide consulting engineering services for the design and construction of a new public works yard and connecting public road.

KGS Group provided geotechnical investigation, site engineering design, cost estimates, specifications, regulatory applications, resident services and contract administration for the facility.

The works included the construction of 500 metres of roadway, 540 metres of sanitary sewer and 550 metres of water service through challenging Canadian Shield conditions. The approximate construction value of the sitework contracts total \$3,000,000.
