

MUNICIPAL BRIDGE APPRAISALS

City of Kenora

Kenora, Ontario

Norlen Bridge

Bailey Bridge

Deacon Creek Arch Pipe

Timber Bridge

La Jeunesse Bridge

Portier Bridge

Project Description

In 1999, KGS Group was retained to appraise the condition and the necessary capital upgrading costs and maintenance requirements for 182 km of roads in the Town of Jaffray Melick, now incorporated into the City of Kenora. Six (6) bridge structures were included as part of this study. KGS Group appraised the condition of the bridges on the basis of MTO's Municipal Bridge Appraisal format. Recommendations for upgrading of the bridges were submitted together with associated cost estimates. One of the bridges was recommended to be replaced. KGS Group incorporated the evaluations and cost estimates into a Microsoft Access database system and provided a user manual for the City of Kenora.
